

To whom it may concern,

Thaiminhtan has been a key member of the Credit Risk domain in Trust Bank. He has delivered on various projects for the domain which includes projects that dealt with tracking of delinquency customers, enabling debt relief capabilities and facilitating debt collection.

Throughout his tenure, he has taken the lead role of the debt relief project and the debt collection project. He was involved in managing the different requirement gaps whilst able to collaborate with other teams to get a sense of the right path forward. He does the work systematically usually with the use of checklist to ensure everything is in order. In terms of delivery, he has proven to execute in a timely fashion.

Outside of the main key deliverables, Thaiminhtan has been diligent in ensuring production stability, mentoring juniors and providing a helping hand whenever a team member is in need. He has shown qualities of a team player whilst showing leadership by example.

Thaiminhtan is always ready to ask questions for more clarity which is highly encouraged in the organisation. He voices out his perspectives clearly to challenge and improve existing processes. He has established good working relationships with his peers and team members.

In summary, Thaiminhtan is a meticulous and collaborative team player with leadership qualities that will bring successes to the projects he undertakes.

This is a formal recommendation of the work aptitude and quality that Thaiminhtan can provide to contribute to the success of any technological project in his expertise and beyond.

Thank You.

Sincerely,

Kenny Hoe – Tech Lead for Credit Risk and Fraud
